- ❑ Collaborate with UI/UX designers create user-friendly interfaces, improving overall customer satisfaction.
- ❑ Conduct regular code reviews insuring adherence to coding standards and best practices.

## Projects

### NEECA

**Technologies:** Next.js, Redux, Tailwind CSS, Chart.js, GraphQL

**Overview:** The National Energy Efficiency and Conservation Authority (NEECA) platform is a dynamic system designed to manage and streamline the registration of products (representing companies) and ensure compliance with energy efficiency standards through comprehensive lab testing and certification processes. This project serves as a centralized solution for companies to register their products, submit lab reports, and undergo required tests to meet regulatory requirements for energy efficiency and conservation in Pakistan.
